ATTEND
 Connect to Your Success

ABOUT ATTEND

Since 2002, ATTEND: Your Trusted Source for Superior Quality.

ATTEND, based in Taiwan, has been dedicated to delivering comprehensive connectivity solutions to customers worldwide. Our product line includes a wide range of connectors and cables, such as memory card sockets, PCB card sockets, I/O connectors, and cable assemblies. Our products find applications across diverse sectors, including industrial, networking, transportation and consumer electronics. By actively engaging with our client's businesses, we offer innovative connectivity solutions that empower them to develop cutting-edge products and maintain a competitive edge.

WHAT WE PROVIDE

Quality

Commitment to exceptional quality, implemented through rigorous checkpoints and careful vendor selections, ensures a significant competitive edge in the tech industry.

Customization

In aligning tailored solutions with the diverse and evolving needs across various industry sectors, ATTEND actively collaborates to transform innovative ideas into reality.

Service

Our team delivers distinctive connector and custom cable solutions, specifically designed to cater to the diverse needs of our clients across various industries.

Connect

With global extensive marketing and distribution channel relationships, our sales & technical team support you anywhere in the world.

Customization Service

Custom Cable Solution

Initiation begins with **early design involvement**, followed by **guiding material selection, refining designs**, and **developing prototypes**. This approach ensures reliable solutions, evaluated through performance testing in an integrated, streamlined process.

Early Design Involvement

Early design engagement fosters collaboration, innovation, and optimal results.

Material Consultation

Quality materials are rapidly sourced for reliable, and cost-efficient cable performance.

Design Optimization

Skilled engineers collaborate to tailor cable designs for client needs.

Prototype Development

Comprehensive prototyping and technology transform ideas into tangible cable solutions.

Testing Performance

Engineers collaboratively design and stringently test custom cables for quality.

Industrial Connectivity

- Industry Ethernet Cable
- Circular Connector Cable
- Power Cable
- Crimp Connector Wire Harness
- OBD2 Wire Harness

RF & High-Frequency

- FAKRA Cable
- RF Coaxial Cable

Data & Storage

- Pogo Pin Cable
- USB Cable
- SATA Cable

Multimedia & Display

- Camera Link Cable
- Digital Video Cable
- LVDS Wire Harness
- FFC (Flexible Flat Cable)
